REASONS FOR ALLOWANCE

1. Claims 9-14 and 16 are allowed. The following is an examiner's statement of reasons for allowance.

Regarding claim 9, the prior art fails to disclose or fairly suggest a pore or particle-size distribution measurement method for measuring size distribution of pores or particles existing within a porous insulator film formed on a surface of a substrate, including only irradiating the insulator film with X-rays from the insulator film's surface side at a single incident angle which is set to be larger than a total-reflection critical angle of the insulator film and larger than 1.0 times a total-reflection critical angle of the substrate but less than 1.3 times a total-reflection critical angle of the substrate, in combination with all of the other limitations in the claim. Claims 10-14 and 16 are allowed by virtue of their dependency.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
